

# 항만인프라 혁신 국제 세미나

The International Seminar on  
Port Infrastructure Innovation

2019. 10. 23 (수) 그랜드 힐튼 호텔  
2019. OCT. 23(Wed) Grand Hilton Seoul

주최 Ministry of Oceans and Fisheries 주관 KMI KOREA MARITIME INSTITUTE

| 컨퍼런스<br>2019. 10. 23. (수) |      |                                                                                                                                            |                             |
|---------------------------|------|--------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|
| 시간                        |      | 프로그램                                                                                                                                       |                             |
| 09:00~10:00               | 30'  | 등록                                                                                                                                         |                             |
| 10:00~10:20               | 30'  | 개회식                                                                                                                                        | 개회사 (한국해양수산개발원 항만·물류 연구본부장) |
|                           |      |                                                                                                                                            | 축사 (대한민국 해양수산부 항만개발과장)      |
| 10:20~10:30               | 10'  | 기념사진 촬영                                                                                                                                    |                             |
| 발표                        |      |                                                                                                                                            |                             |
| 10:30~11:00               | 30'  | Port Performance Scorecard (PPS): UNCTAD's Experience<br>(Hassiba Benamara, UNCTAD)                                                        |                             |
| 11:00~11:30               | 30'  | The Logistic Performance Index: Strengths and areas of<br>improvements<br>(Richard Martin Humphreys, WB)                                   |                             |
| 11:30~12:00               | 30'  | Application of performance measures for air cargo to sea ports<br>(James Edward Hookham, GSF)                                              |                             |
| 12:00~13:00               | 60'  | 오찬 (KMI제공)                                                                                                                                 |                             |
| 13:00~13:30               | 30'  | Port performance measures: state of the art and the<br>methodology behind the sustainable performance monitor<br>(Gordon Wilmsmeier, PPRN) |                             |
| 13:30~14:00               | 30'  | Port Performance measurement: Learning from exercises in<br>North America and Europe<br>(Athanasios Pallis, IAME)                          |                             |
| 14:00~14:30               | 30'  | An overview of experiences in building productivity indices in<br>Latin America<br>(Ricardo Jose Sanchez, UN-ECLAC)                        |                             |
| 14:30~14:50               | 20'  | 커피브레이크                                                                                                                                     |                             |
| 14:50~15:20               | 30'  | Smart port: Challenges & opportunities for Sustainable<br>Development<br>(Sooyeob Kim, UN-ESCAP)                                           |                             |
| 15:20~15:50               | 30'  | The smart port concept: the perspective of the port of Barcelona<br>(and other ports)<br>(Carlos Rúa Costa, Port Authority of Barcelona)   |                             |
| 15:50~16:20               | 30'  | Smart Port Logistics of Korea<br>(최상희 연구위원, KMI)                                                                                           |                             |
| 16:20~16:50               | 30'  | Development and Investigation of Port Service Quality Index<br>(PSQI)<br>(김형태 명예연구위원, KMI)                                                 |                             |
| 16:50~17:10               | 20'  | Commercialization and Communication Plans of PSQI<br>(Jan Hoffmann, UNCTAD)                                                                |                             |
| 17:10~17:20               | 10'  | 폐회식                                                                                                                                        |                             |
| 17:30~                    | 120' | 만찬 (KMI제공)                                                                                                                                 |                             |
